Full-Stack Software Engineer with hands-on experience building and deploying MERN-based web applications using React, Next.js, Node.js, Express, and MongoDB. Strong foundation in software design, RESTful APIs, authentication, and responsive UI development. Brings an engineering mindset shaped by years of experience translating complex requirements into reliable, maintainable systems. B.S. in Computer Science (Software Engineering), GPA 3.97.

WORK HISTORY

ENTrust Solutions – Senior CAD Technician

Catlettsburg, KY | August 2019 – Present

- Led design and optimization of complex utility layouts, translating ambiguous requirements into precise, production-ready deliverables.
- Improved documentation, version control, and cross-team coordination, reducing rework and accelerating delivery timelines.
- Recognized for accuracy, reliability, and ownership under tight deadlines.
- Demonstrated automation and scripting in a production engineering environment.

AeroTek - Drafter

Maysville, KY | February 2019 – August 2019

- Reviewed and revised technical drawings to ensure compliance with project and industry standards.
- Collaborated with engineers to maintain up-to-date project documentation, improving team efficiency.
- Identified design discrepancies and contributed to enhanced **quality control** and process accuracy.
- Streamlined data entry and documentation workflows, reducing retrieval time and minimizing errors.

EDUCATION

Bachelor of Science, Computer Science – Software Engineering

Southern New Hampshire University | Aug 2023 – Aug 2025

- GPA: **3.97** | Dean's List every semester

Associate of Arts, Mechanical Design

Maysville Community and Technical College | May 2020 – Jul 2020

- GPA: **4.00** | Dean's List

Associate of Science, General Studies

Maysville Community and Technical College | Aug 2012 – May 2015

- GPA: 3.50 | Dean's List
-

PROJECTS

DeckHaven | Full-Stack Web Application

- Designed and developed a full-stack trading card collection and deckbuilding platform using Next.js, Prisma, and PostgreSQL.
- Implemented dynamic CRUD functionality for managing collections, decks, and card organization across multiple trading card games.
- Built responsive UI components with Tailwind CSS focused on clean user experience and scalable layout design.
- Integrated modern authentication patterns and structured backend data models for future expansion and premium feature support.
- Deployed and maintained production builds using Vercel.
- [Live Demo](#) | [GitHub](#)

Developer Portfolio | React & Vite

Responsive, terminal-style portfolio to showcase full-stack projects.

- *React, TailwindCSS, Vite, subtle animations*
- *Highlights deployment, UI, and responsive design skills*
